Work in the privacy of your own home/office

- No need to travel anywhere - your family won't have to do without you.
- Learn at your own pace - take a break when you need it.
- Refer back to the video at any time - you'll still have the hardware to experiment with

* *DirectSOFT* version 2.4a can be used with this course, although version 3.0 and above is recommended.

InterConnecting Automation does stock the latest full version of *DirectSOFT* available for purchase.

A FREE 100-word version of *DirectSOFT5* is available for download at:
<http://support.automationdirect.com/demos.html>

Video Trainer from:

InterConnecting Automation Inc.

Overview of course content

- **Basics:** introduction, basic wiring, logical expressions, sensors, relays, reasons for using a PLC, *AutomationDirect.com's* PLC families
- **CPU internals:** scan time, addressing, I/O (Xs and Ys), commands
- **I/O:** inside the I/O boards, octal addressing, programming methods — hand held programmer, *DirectSOFT*
- **DirectSOFT:** getting started, links, offline vs. online programming, maneuvering through and using *DirectSOFT*, creating and editing rungs
- **Programming and debugging:** using inputs and outputs, debugging and status mode, PLC commands (all basic instructions including timers, counters and the accumulator), troubleshooting
